Education

Batangas State University – The National Engineering University

Bachelor of Science in Computer Science | 2022 – 2026

- DOST JLSS Scholar (Junior Level Science Scholarship)
- Cum Laude (GWA: 1.46)

Experience

Freelance Software Developer

2025–Present

- Developed and maintained custom software solutions for business modernization, internal tools, and academic capstone projects using FastAPI, Laravel, PHP, and JavaScript.
- Translated client requirements into application features, workflows, and user interfaces across frontend and backend systems.
- Implemented new features, resolved bugs, optimized application performance, and supported deployment and maintenance.

Front-End Developer and UI/UX Designer

2025

Center for AI and Smart Technologies (CAIST) – Batangas State University

- Designed and developed responsive web interfaces using Laravel, Filament, Livewire, Alpine.js, and Tailwind CSS.
- Built reactive UI components and contributed to feature development and maintenance for AI and smart technology projects.
- Applied UI/UX principles to improve interface structure, responsiveness, and usability.

Multimedia Specialist

2022

GoCreate – Multimedia Ministry of The Avenue Village

- Edited promotional and event videos, designed publicity materials, and created presentation desks.
- Operated ProPresenter, projection software, and media displays for live services and events.

Key Development Projects

The Avenue (Flutter, Dart, Firebase, Firebase Cloud Messaging)

- Developed a cross-platform Flutter application for managing church events, birthdays, and other important dates.
- Implemented Firebase-based data storage and synchronization with real-time Firebase Cloud Messaging (FCM) notifications.

Noise Guided Image Manipulation Localization (NGIML) (Python, PyTorch, timm, Pandas, NumPy)

- Developed a hybrid CNN-Transformer framework for pixel-level image forgery localization.
- Combined EfficientNet-B0, Swin Transformer, and Steganalysis Rich Model (SRM) noise features to identify manipulated regions in images.
- Evaluated the architecture using PyTorch and timm across standard image-forensics benchmark datasets.

CalcClash (C#, Unity2D)

- Developed a 2D mobile card battle game in Unity with custom game mechanics, math puzzles, card deck management, and animation state machines.
- Designed responsive touch-based UI/UX and optimized UI scaling and performance across different mobile device resolutions.

SanGawa (Java, Firebase, Google APIs)

- Contributed to an Android task management application supporting collaborative task lists, user authentication, and real-time messaging.
- Integrated Google Maps API for real-time geolocation tracking and location-aware task coordination.

Kainmunity (C#, ASP.NET, WinForms, MySQL, Aiven)

- Developed a C# ASP.NET and WinForms application for food waste reduction, resource sharing, and donor-recipient coordination.
- Integrated Aiven MySQL for cloud-based inventory persistence and implemented user management and automated resource summary reports.

Technical Skills

Languages: C#, Python, Java, JavaScript, PHP, Dart

Frameworks & Platforms: Laravel, React, FastAPI, Flask, Express.js, ASP.NET, Android (Java), Unity2D, WinForms, Godot

Databases: PostgreSQL, MySQL, SQLite, Firebase, MongoDB

Tools and Technology: Git, Docker, Linux, CI/CD, REST APIs, Cloudflare Tunnel

Cybersecurity & Digital Forensics: Wireshark, SleuthKit, File Signature, Steganography, Log Analysis, Vulnerability Assessment

Design & Productivity: Figma, Adobe Creative Suite, Canva, Microsoft Office

Concepts: OOP, MVC, Software Testing, Agile Development, UI/UX, HCI, Secure SDLC, Real-Time Systems

Placed 62th/1360, PatriotCTF George Mason University (Cyber Security)	Sept 2024
Grand Finalist, PalaSSCpan World Engineering Day, Batangas State University TNEU (Quiz Bee)	AY 2023-2024

Leadership

Co-Founder Looks Good To Me (LGTM) Community	2026 - Present
Independent tech community for BatStateU CS/IT students & alumni, organizing workshops, projects, and recreational events.	
Co-Head and Challenge Author TechnoFusion Capture the Flag Challenge	Apr 2025
Designed cybersecurity CTF challenges and co-led event orchestration for participants.	
Head, Cyber Security Student Coders for Resourceful and Innovative Programming Techniques	AY 2024–2025
Led cybersecurity workshops, CTF training, and technical mentorship for student developers.	

License and Certifications

Civil Service Eligibility (Professional), Rating: 90.96	
ASEAN Data Science Explorers Enablement (SAP Analytics Cloud & SAP Build Apps)	Aug 2026
Cisco Junior Cybersecurity Analyst Career Path	May 2026
Cisco Cyber Threat Management	May 2026
